LOCAL INTELLIGENCE.

PASSENGER TRAVEL.

ARRIVALS.
BY OLIVER & SALISBURY'S HAMILTON LINE
A. J. Blair Hamilton
DEPARTURES.
BY OLIVER & SALISBURY'S HAMILTON LINE
J. Evans Hamilton
George Ames

AN ACCIDENT.—P. Darnum has been

engaged in sinking a well for water lately for Mr. Page, in the lower portion of town. He had succeeded in reaching a depth of twenty-five feet, without any indication of water. Yesterday, while descending the well, being about twelve feet from the bottom, the splice in the rope gave way, letting him fall to the bottom of the shaft. He alighted on his feet, jarring him up considerably and cutting his head some in the descent but otherwise escaped.

LA BASTIE GLASS.—We were yesterday shown by J. Eisenmann a number of lamp chimneys made of La Bastie or malleable glass, a recent French invention, for which patents have been obtained throughout Europe and the United States. They are warranted not to break under any ordinary usage, can be let fall on the floor or thrown down without any seeming effect on them. These kind of chimneys will be the kind used in future.

It is no trick to get rich, if you go about it in the right way. Now this morning for instance, get a cent, double it to-morrow morning, that's two cents, and so on for twenty-eight days. At the end of that time if you follow our simple instructions you will have just \$1,344,777.75, and can make that Centennial trip you have been talking about so long.

FOR SAN FRANCISCO.—George Ames left Poché by yesterday's stage for San Francisco, his visit there being for the purpose of ordering a large spur wheel for the Raymond and Ely pumping works, to replace the one broken on Wednesday last. There will be one made this time that will not give as much trouble as the other always has done.

A. J. BLAIR, Superintendent of the A. P. mine and mill, arrived on last evening's backboard from San Francisco. Johnny will soon make arrangements for a supply of water so as to keep the mill going regularly. H. Arnold, agent for Lilienthal & Co., of San Francisco, also arrived by the same conveyance.

THE CARSON TRIBUNE SAYS: "The owners of the Elko papers will have to enlarge their journals to enable them to find space for the numerous announcements of candidates for county offices. It is a little different in Lincoln county; nobody wants a county office, at least we have not heard of any one."

BIO MINING SCUM.—It is generally understood around Poché that a big mining suit is about being commenced, namely, a suit by the Newark Silver Mining Company against the Meadow Valley Mining Company for \$300,000. We did not learn the grounds of the suit as the complaint has not yet been filed.

REDEMPTION FUND.—The time in which to make bids of county scrip for the one thousand dollars in the Redemption Fund of Lincoln county, expired yesterday. The bids will be opened to-day at 11 o'clock and the award to different bidders be made.

THANKS.—We are under obligations to the members of the Young Men's Social Club for an invitation to a party to be given on Tuesday evening, August 8th, at M. Brown's Hall.

OFF FOR WARD CITY.—Three miners started on foot yesterday for Ward City. They had their blankets and provisions strapped on their backs.

STAGES.—The Eureka and Salt Lake stages left yesterday at seven o'clock. Three passengers left by the Eureka coach.

PAY-DAY.—The Raymond & Ely and Meadow Valley mines disburse to-day the amount due for labor for the month of July.

MEETING.—Lightner Hook and Ladder Company held their regular monthly meeting this evening at 8 o'clock.

RAIN.—A light shower of rain visited Poché yesterday afternoon.

DEATH OF DR. McMEANS.—Dr. McMeans dropped suddenly dead in his office a little before 8 o'clock last evening. He was engaged in quiet conversation with Dr. Bergman and was passing the door, holding a glass in his hand, when suddenly he clapped his hand on his heart, exclaiming: "Oh, my God! Go and get a doctor!" and immediately falling to the floor, breathed his last. Heart disease was undoubtedly the cause of the sudden and unexpected ending of an eventful life. The Doctor had only been a resident of Reno a few weeks, having removed here from Virginia, the altitude of the latter place being too high for him. Under the gentle influence of Reno climate he was soon much improved in health, and had often expressed his satisfaction at the change. His demise will cause deep regret and sorrow to those who knew him, and especially to those old pioneers of whom he was the pet, having been President of the Society till a recent date. The remains of Dr. McMeans were last night placed in charge of undertaker Sanders, and the body packed in ice. Members of the Pioneer Society, and other friends will be down from Virginia this morning, and decide as to the disposition of his remains, and make the necessary arrangements for the funeral. [Reno Journal, 1st.]

Doctor S. A. McMeans has been a resident of the State of Nevada for years, making his home principally at Virginia City. He resided for about two years at Hamilton, White Pine county. The Doctor leaves many sincere friends throughout the State who will mourn his loss.

We learned yesterday that the "Deadwood Miner," published at Deadwood City, in the Black Hills, reports the killing of John Hinch, a former resident of Poché, by Indians.

FIRE MEETINGS.—The members of Protection and Poché Hose held their regular monthly meetings last evening at their respective hose houses at 8 o'clock. No business of public importance was transacted.

REMOVAL OF A LODGING HOUSE.—The beds, bedding, &c., of the Doscher lodging-house on Main street, are being packed up for removal to Ward City.

The following passengers will arrive on to-night's stage from Eureka: H. S. Silverman, W. H. Kline and Thomas Diamond.

DUSTY ROADS.—Parties arriving on the backboard yesterday, were covered with about two inches of dust. The roads now are very dusty.

BY TELEGRAPH.

SPECIAL TO THE POCHE DAILY RECORD BY WESTERN UNION LINE.

EASTERN DISPATCHES.

New York, Aug. 3.—The Tribune's

Washington correspondent says: After a talk with the leading Senators, concludes Congress cannot adjourn for another week. Conkling thinks the House wants to rush away and avoid the perplexing currency question, which the Democrats are unwilling to meet. Mr. Boutwell thinks an adjournment possible but not likely, he thinks the Senate will not give any diplomatic bill and the new House conferees are no better than the old ones; he is anxious to present his Mississippi report which may occasion a debate, but the testimony is not yet ready; Mitchell thinks an adjournment not possible; he says the subject has not been canvassed and there is much work yet to do. He mentioned the Hawaiian treaty and the Pacific Railroad as questions yet to be considered. Logan said he wants to get away, but he believes in getting rid of the business of Congress first. He thinks a caucus will be held to-morrow, when reports will be made by general committees and the condition of business ascertained; it looks to him improbable that everything can be done by Monday noon. He thought the adjournment could be reached in four days as easily as in four weeks, especially in cases where things are understood as well as the appropriation bill, Kernal Nelson and most of the Democrats. Jones of Florida, being the exception thinks an adjournment on Monday practicable and proper. Dawes, who has been in Congress so long that his judgment is good, said no arrangement on the appropriation bill has been made that gives sort of promise and so he could not think it possible to adjourn so soon. Ferry, President pro tem, said an adjournment cannot be hurried on the Senate and not desirable, that there is a large amount of business before the Senate in which Committees and Senators are interested and they will each think the business most important.

LANING, Mich., August 3.—The Republican State Convention met here to-day, and nominated for Governor, C. M. Crasswell; Lieutenant Governor, Alonzo Sessions; Secretary of State, E. O. Holden; Treasurer, W. B. McCreery; and other minor officers and electors. The resolutions endorsed the platform and the nominees of the Cincinnati Convention, reaffirms the principles of the Republican party and reviewed its record, and demands equal rights to all citizens.

PHILADELPHIA, August 3.—Paid admission today amounted to \$27,240. New York, August 3.—The Times this morning states that Commodore Vanderbilt is dying and cannot live until noon. His son, W. H. Vanderbilt, was summoned to his bedside by telegraph. He is now there passing the night with him, which is the first time since his father's sickness.

The following is the Tribune's special from the camp on the Yellowstone river, July 27, via Helena, August 3: The report that the prisoners taken during Custer's fight on the Little Big Horn, were all dead, is untrue. The last of the prisoners fell fighting to the last. The command moves to-day towards Rosebud Valley, which is practically for wagons. We will give up these stream communications we have opened up with Crook. Trails are reported leading from Little Big Horn towards Rosebud.

PACIFIC COAST.

SAN FRANCISCO, Aug. 4.—A young man, named Paul Fischer, committed suicide last night in a building on the north-west corner of Broadway and Mission streets, under novel circumstances. The deceased was 23 years of age, followed the avocation of a shoemaker, has been for a long time a nightly visitor at a saloon in the building described. His regular attendance was attributable to the attachment he had conceived for the sister-in-law of the saloon proprietor, a German girl aged about 22 years. He plied his suit with great assiduity, but was firmly refused by the young lady. Last evening he was in the saloon as usual until a late hour. At half past 11 o'clock the girl sought her room on the second floor and while descending she was started by hearing a voice under her bed, exclaiming "Oh my God I am killed!" and immediately afterwards a pistol shot; she screamed and a moment after her brother-in-law rushed in and looking under the bed found the body of young

Fischer lying face downward in a pool of blood with a revolver in his right hand pointed at his head. He had been shot through the head and had evidently died almost immediately. He must have stolen into the room sometime before the astonished inmates entered, though what motive he had in committing suicide under such singular circumstances, is a subject for conjecture. The body was conveyed to the morgue where an inquest will be had to-day.

SAN FRANCISCO, August 3.—Harry W. Johnston, a stockbroker, was arrested on East street this afternoon, on a warrant sworn out by Charles Strieb, charging him with embezzling 40 shares of Sierra Nevada mining stock, which had been entrusted to him. The matter will be brought into Court to-morrow.

SAN PRIZO, August 3.—A dispatch from Campo this morning states that the Indians have stolen all the saddle-horses from the Mexicans in and around Tecate. The Indians were passing to and fro across the line all night. White flags were flying over most of the houses awaiting the arrival of the Governor. A dispatch from Captain Bernal this evening says that the Indians number from 60 to 100. They have taken a stand in the mountains south of Tecate, waiting the arrival of the Mexicans from San Rafael, and say no Mexicans can pass there. They have brought their families and baggage to this side of the line. Well informed persons state that this condition of affairs has been brewing for a long time. The Indians are assembling in large numbers from all parts of Lower California, and if the Mexicans attempt to do anything there is likely to be serious trouble.

FOREIGN NEWS.

LONDON, August 4.—A Reuter dispatch reports that the Turks attacked the Servians at Kujavazait. The fight at the last accounts was in progress, and its result as yet is unknown.

LONDON, Aug. 4.—The Times says silver was in demand last night at 51 pence per ounce and some Indian buyers have tried to get a supply at 51 1/2 pence, but there is no stock here. The impression prevails in some quarters that Germany is holding back her supply for higher prices, but it is very doubtful whether Germany and her supply of silver may not be newly a bugbear, but that there must be now considerable genuine demand for it is certain. Financiers say bar silver was yesterday quoted 51 1/2 pence to 52 pence, but no transactions were reported in consequence of the absence of supplies. A telegram from India announces exchange has risen to shilling and 8 pence per rupee.

The Matrimonial Creed.

Whoever will be married, before all things it is necessary that he hold the conjugal faith; and the conjugal faith is this: That there were two rational beings created, both equal, and yet one superior to the other, and the inferior shall bear rule over the superior, which faith, except every one keep whole and undivided, without doubt, he shall be scolded at everlastingly.

The man is superior to the woman and the woman is inferior to the man; yet both are equal, and the woman shall govern the man.

The woman is commanded to obey the man, and the man ought to obey the woman.

And yet there are not two obediences—but one obedient.

For there is one dominion nominal of the husband, and another dominion real of the wife.

And yet there are not two dominions, but one dominion.

For, like as we are compelled by the christian verity to acknowledge that wives must submit themselves to their husbands and be subject to them in all things.

So are we forbidden by the conjugal faith to say that they should be at all influenced by their wills or pay regard to their commands.

The man was not created for the woman, but the woman for the man.

Yet the man shall be the slave of the woman and the woman the tyrant of the man.

So that in all things, as aforesaid, the subjection of the superior to the inferior is to be believed.

He, therefore, that will be married must thus think of the woman and the man.

Furthermore, it is necessary to submissive matrimony that he also believe rightly the infallibility of the wife.

For the right faith is that we believe and confess that the wife is fallible and infallible.

Perfectly fallible and perfectly infallible; of an erring soul and unerring mind subsisting; fallible, as touching her human nature; and infallible, as touching her female sex.

Who, although she be fallible and infallible, yet she is not two, but one woman; who submitted to lawful marriage to acquire unlawful dominion, and promised religiously to obey, that she might rule with uncontrolled sway.

This is the conjugal faith, which, except a man believe faithfully, he cannot be married.

FORTY-FOUR PER CENT. GOLD.—One of our leading citizens suggested, yesterday, that all unconsciously the press of Nevada, and especially of Virginia City, has been doing very much to depreciate silver and bring about the decline of bullion, and that this has been done by not, in each mention made of bullion shipments, giving the proportion of gold and silver in the production. There may be some truth in the point made, from the fact that Nevada is called the Silver State, and the Comstock silver lode. Still, the assertion has been again and again made by the Enterprise, that the bullion of the Comstock carried from forty-three to forty-seven per cent., or nearly one-half gold. The average of the whole lode is within a very small fraction of forty-five per cent. This lapse on the part of the press has grown naturally out of the situation, for only two or three years since there was a premium on the silver over the gold. This was at one time the source of considerable revenue to the mines. During the fiscal year of 1873, the Chollar-Potosi produced about \$3,000,000 in bullion, and the books of that company show a revenue of \$43,000 from the premium on the excess of silver over gold which this lode contained. Had the books of other mining companies, which were at that time bullion-producing, been examined, they would doubtless have shown a like income from the same source. But now that the discount on silver bullion is so great, we cannot but regard the suggestion of our friend as reasonable, and shall endeavor hereafter to have heavy shipments of bullion from the Comstock accompanied by such statistics as shall indicate to the world what we all very well know, that at least nine-tenths of the production of gold. When this fact comes to be realized by the world at large, and that the millions of the Comstock are not all silver, there is a great fear of being overburdened by its treasures may subside and her industries appear after all worth cherishing.—[Virg. Enterprise.]

REMOVED.—Robt. Adams tailor, has removed to Lacour street, four doors from Main street, in Lynch's block, where he has on hand a large and fine assortment of clothes, cassimeres and vestings adapted to custom trade and made up at reasonable rates. Cleaning and repairing done.

SOLE AGENCY.—W. R. Wilson is sole

agent for San Francisco Post, Daily Enterprise, Salt Lake Tribune, Eureka Sentinel and Comstock Record. Also dealer in California and New York newspapers, school books, stationery, music, cigars and tobacco, next door to Dexter stables.

ICE! ICE! ICE!—S. B. Martino once more announces himself as being in the field with a large supply of ice, clear ice, which will be sold at a reasonable price. Leave orders at Fulk's & McAlpin's.

If you want any tin ware, sheet iron and copper ware manufactured or repaired, and also plumbing at very low prices, go to J. J. Halpin & Co., who employ none but first-class workmen.
